

Migraine	Đau nửa đầu							correct	
Hypertension	Tăng huyết áp							<p>In the case of keywords that are challenging to convey through textual descriptions, such as "Hypertension," our model encountered difficulty in accurately retrieving relevant images.</p>	
	Specialized terms								<p>When conducting search for complex medical keywords like "Amyotrophic Lateral Sclerosis," our observations suggest that the search results may be limited or inconclusive. This challenge may stem from the model's difficulty in comprehending such intricate terminology or potentially from limitations within the dataset itself, where information related to this specific condition may be scarce or insufficiently represented.</p>
Amyotrophic Lateral Sclerosis	Bệnh thoái hóa động kinh								<p>While the results display images of the skin and joints, which are indeed symptoms of this condition, it's important to note that the caption does not accurately describe the typical symptoms of this disease</p>
Ehlers-Danlos Syndrome	Hội chứng Ehlers-Danlos								
Narcolepsy	Bệnh ngủ gật liên								<p>not relate</p>
Prion Disease	Bệnh prion								<p>The image appears to be related to brain pathology, but the caption provided in the results does not directly describe the specific disease or condition being depicted.</p>
Hantavirus Pulmonary Syndrome	Hội chứng đường hô hấp hantavirus							<p>Quite relate with the result of multilingual. While HPS can lead to respiratory symptoms and lung involvement, such as acute respiratory distress, the description alone is not sufficient to confirm an HPS diagnosis.</p>
